## CAREER OBJECTIVE: JUNIOR WEB DEVELOPER

---

### Skills:

- Proficient in HTML5/CSS (utilizing Bootstrap) for responsive web design
- Strong knowledge of JavaScript and jQuery for dynamic web interactions
- Experienced in building web applications using React.js, including Redux (saga, axios) and Route integration
- Familiar with TypeScript for type-safe JavaScript development
- Experienced in OOP and Java
- In-progress learning of Java and Node.js
- English proficiency: B2 level

## EXPERIENCE:

---

Pet-Project Development | Self-taught | 2022-Present

Demonstrated proactive self-learning by conceptualizing and executing a diverse array of personal pet-projects.

Leveraged HTML5, CSS, JavaScript, jQuery, React.js, and TypeScript to bring creative ideas to life. Notable projects include:

**Wheel of Fortune:** Developed a captivating interactive game using JavaScript, HTML, and CSS.

**To-Do List:** Created a task management application using React and Redux, showcasing proficiency in state management.

**Market Page:** Designed and implemented an intuitive web page for markets, combining React and JavaScript for enhanced user experiences.

**Complex Project with Server:** Successfully undertook a substantial project involving server-side development using React and Node.js, highlighting versatility in full-stack development.

Regularly maintained and enhanced projects, refining skills and staying up-to-date with emerging technologies.

And some other projects
